

Lesson Plan Framework

B1a 3.4

Smoking and health

Group: Year 4N

Location: Main Biology Lab

Date/Time: 13h10 to 14h20 / 29thNovember

1. Learning Objectives:

- Describe how smoking tobacco affects health;
- Learn to establish a relationship between smoking and society problems.

2. Learning Outcomes:

- The class will know how to describe some of the smoking tobacco consequences in health, by discussion with other peers and teacher inside the classroom.

3. National Curriculum References:

KS4 (GCSE Science- AQA Science), Chapter B1a 3.4(Smoking and health).

4. Links to other areas:

- Children will be able to learn the lesson topic using some communications skills, literacy and citizenship in a way to relate the topic with society issues.

5. Previous Assessment details informing this lesson:

- Use of a video to capture interest to the new topic as a easy way to make them understand, as well a way to develop pupils with verbal and design literacy skills.

6. Differentiation:

- Particular attention to disruptive pupils, during the lesson and verify at the end of lesson the work developed and complete if necessary.

7. Health and Safety:

- No lab practical activity in this lesson.
