

## YEAR 10 B1

**P6 - Describing the effects of four different factors which have a detrimental effect on human health.**

**TASK for PASS** - You will act a role play describing what the following conditions are and how they have a detrimental effect on human health.

- You need to produce a script of what are you going to say/do as written evidence for the task.

**Note:** Towards the end of two weeks, there will be an opportunity to actually film the role plays as evidence.

### **Important Information:**

Using some magazines, books and the internet were available you will find information relating to the factors below to help you describe the effects of the diseases:

- Smoking
- AIDS
- Anorexia (students will find articles in magazines relating to the topic).
- Schizophrenia

### **Material that you need:**

Paper (to write the script)

Magazines

Pencils, etc.
