# What is a habitat?

**Arctic  
habitat**

**Pond habitat**

**Woodland  
habitat**

**Desert habitat**

**Underground  
habitat**

# What is a habitat?

- The place where an organism lives is called its **habitat**.
- A habitat has all of the things that an organism needs to survive such as the right amount of light, oxygen and water.

# Developing features...

- Fish have gills and fins.

**Adaptations**

# Distribution of organisms...

**The distribution of organisms in different habitats is affected by environmental factors.**

**light**

**nutrients**

**Water  
availability**

# What do you really know...

# Homework...

## 1. How would you describe your habitat?
