Fungi

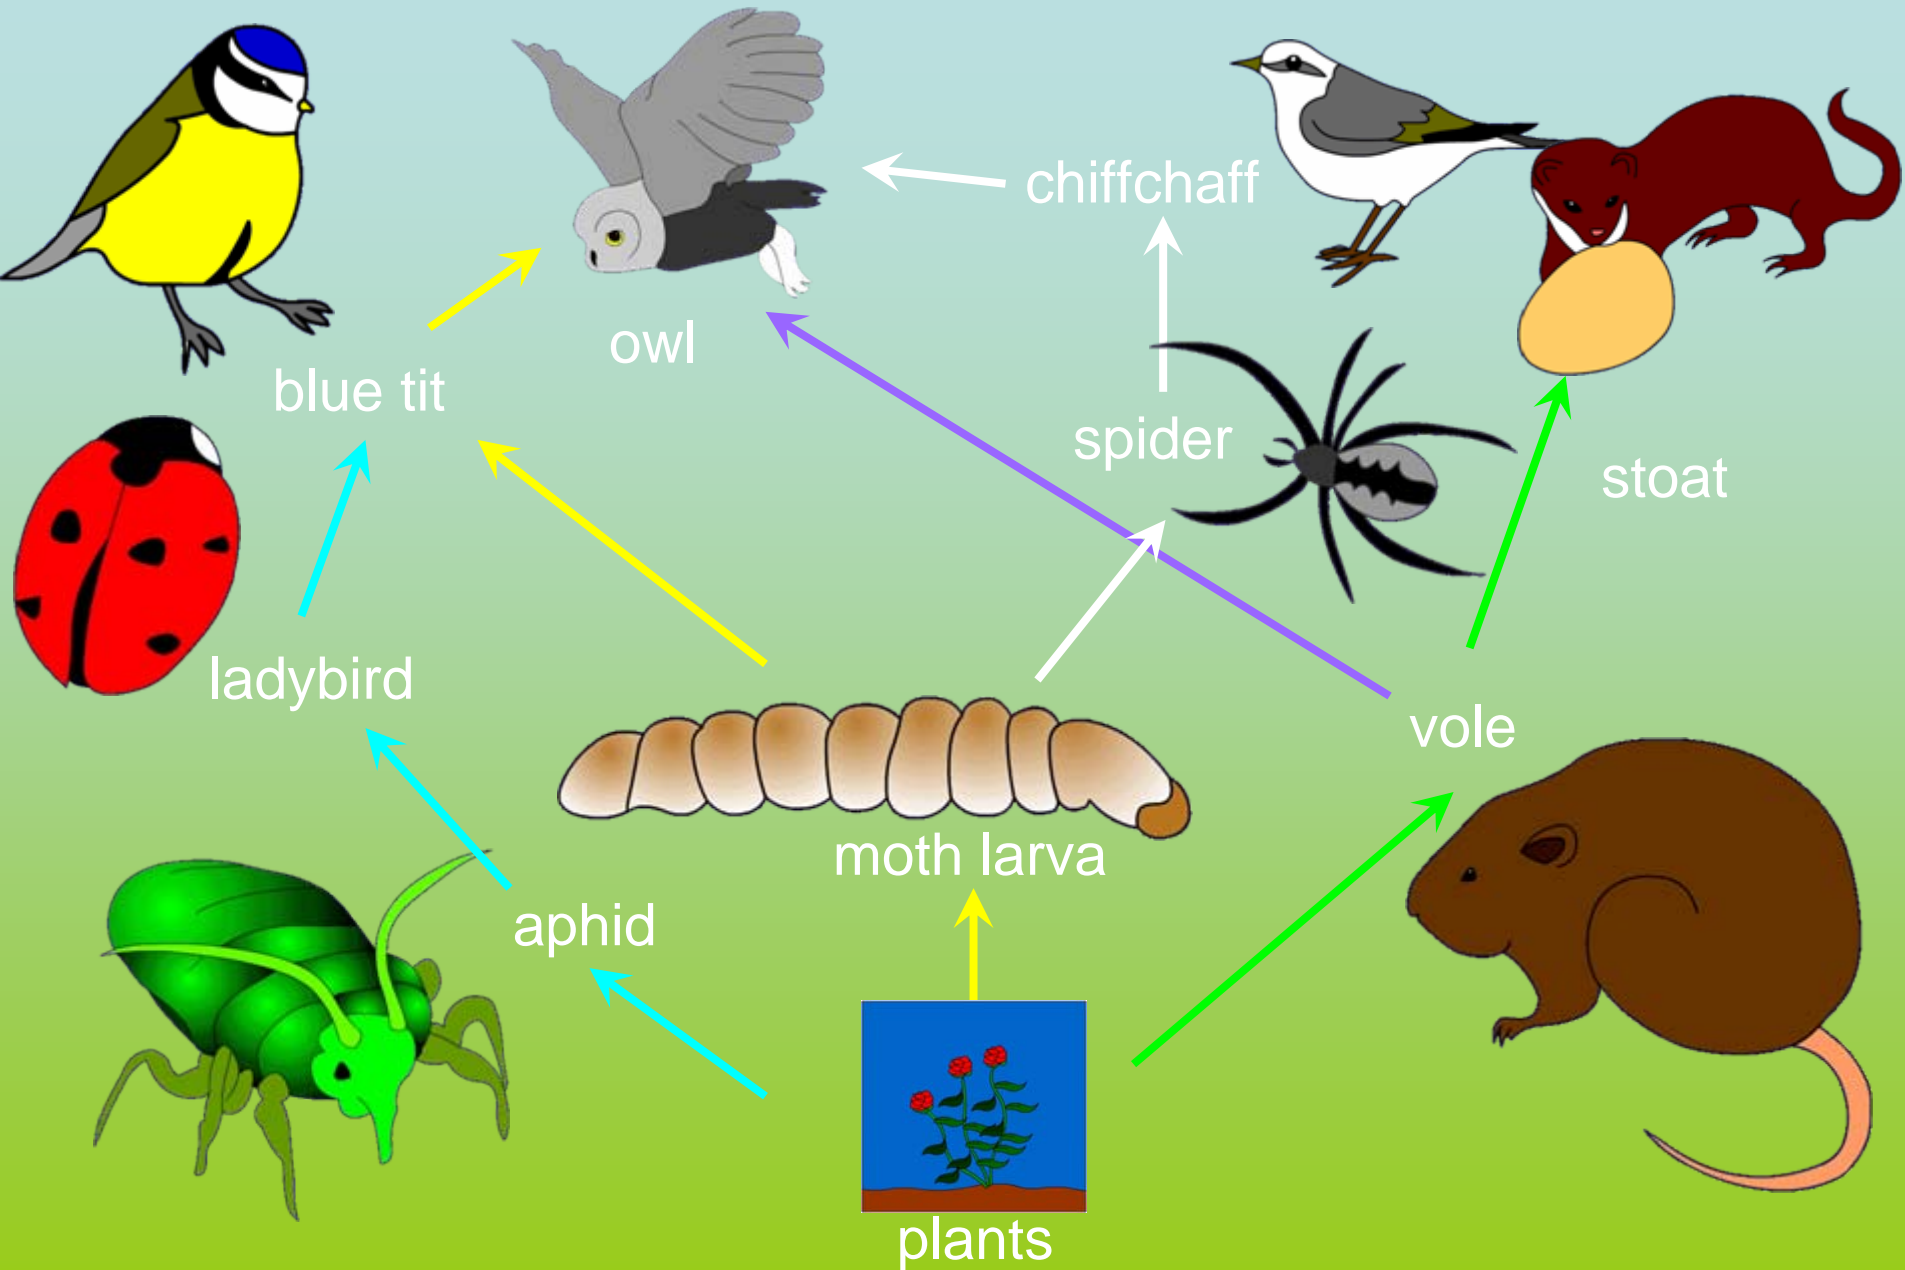

Decomposers

- They play a very important role in this world because they take care of breaking down (cleaning) many dead material.
- Decomposers digest the bodies of dead plants and animals and the waste products of both.

e.g bacteria and fungi

Watch how the food chains are put together to make a food web.

Food Web Activity...

Make your own **FOOD WEB** by using some of the animals that you can find in your bench habitat.

Apparatus:

- A3 sheet
- Glue stick
- scissors
